

*Much more than security, Guardian Angel Systems offers a new way to stay connected to your loved ones, your property and even your pets! Through any web enabled device (iPhone, PC, Mac, Blackberry, etc.) you can receive text & email alerts from your alarm, view video cameras, adjust your thermostats, and check to make sure you turned off the lights. You can even turn off the coffee pot from your office in case you forgot! Best of all, we have systems that pay for themselves and **SAVE YOU MONEY!***

# ... It's Peace of Mind for You and Your Family.

## Personalized Angel Alerts via Text & E-mail

Receive personalized Angel Alerts via Text and E-mail to let you know that the kids got home from school, the pool safety gate was opened, moisture was detected under the sink, anything you care about. You decide what is important to You and Your Family.

## 24/7 Monitoring for Burglary, Fire & Carbon Monoxide

Every Guardian Angel system is monitored by both standard phone line and cellular back-up, ensuring that you are always protected from Burglary, Fire & Carbon Monoxide.

## Lighting Control adds Safety & Saves Money

Light control allows you to add safety, convenience and saves you money.

## Sensitive Area Monitoring

Get an Angel Alert via text or e-mail when the liquor or medicine cabinet is opened, when the safe is opened or even when the kids go into your room when they aren't supposed to.

## Remote Arm & Disarm from Any Smart Phone or PC

You have access to your Guardian Angel system at all times no matter where you are. Never again wonder and worry that you forgot to arm your system. Do it right from your Smartphone, Mac or PC!

## View Live & Saved Video Anywhere, Anytime

Watch live or recorded video of the kids coming home or check in on the babysitter. You can even check on your pets from work.

## Independent Living with Angel Alerts

A unique Independent Living product to help seniors remain in their own homes despite their changing physical needs. This helps delay — and in many cases, totally avoid — moving into assisted living or nursing homes. We provide an at your fingertips "Help Button" which sends an immediate message via text or e-mail to any friends or family members.

## Control Your A/C & Heat Remotely

Adjust the temperature of your home to save on energy costs from anywhere at anytime. Raise or lower the heat or A/C before you leave work and arrive home to a comfortable temperature.
